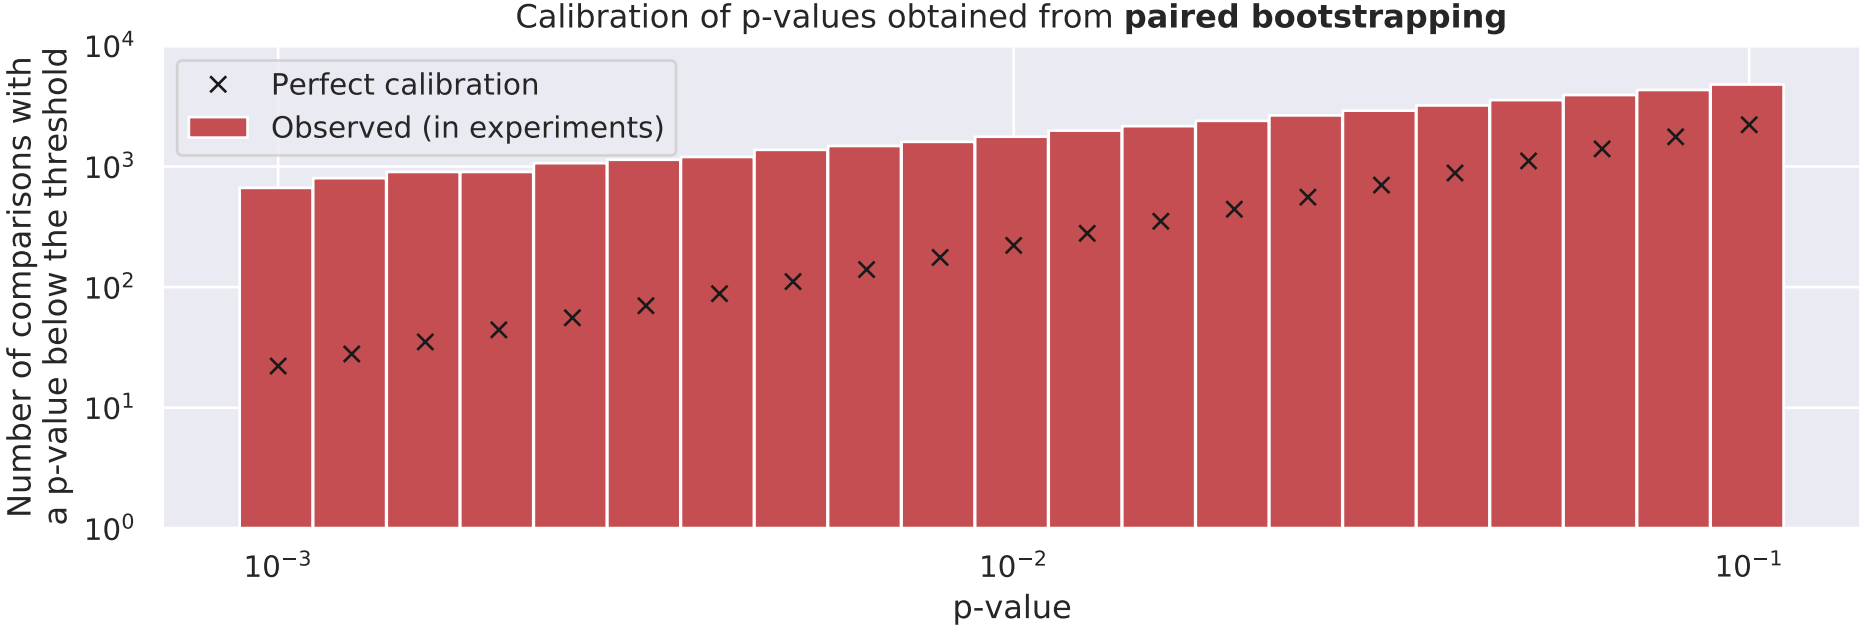
Calibration of p-values obtained from the **permutation test**
Perfect calibration
Observed (in simulation)
Number of comparisons with a p-value below the threshold
10^4
10^3
10^2
10^1
10^0
10^{-3}
10^{-2}
10^{-1}
p-value



Calibration of p-values obtained from **paired bootstrapping**
Perfect calibration
Observed (in experiments)
Number of comparisons with a p-value below the threshold
10^4
10^3
10^2
10^1
10^0
10^{-3}
10^{-2}
10^{-1}
p-value
