

Explanation of Revisions

This revision was submitted before the deadline and contains only a minor correction. Specifically, in Figure 2 of Section 2, which illustrates the CodePO process, there was a misspelling of the word "repetition" in the description of the four rules. I have corrected this typo in the current version. Other than this change, the manuscript remains identical to the previously submitted version, in order to avoid any confusion. Thank you for your consideration and review.
