

**Instructions** | **Shortcuts** | Is there any scene cut during the video?

**Instructions** X

Read the task carefully and inspect the video.

Assess the video quality by checking for any sudden scene cuts. Scene cuts are shot changes, including fade-ins and fade-outs.

**Select an option**

- Yes, there is scene cut. 1
- No scene cut. 2

(1.a) Scene cut detection UI

Caption1: The video depicts a short, animated sequence featuring a small, anthropomorphic creature with a red body and yellow head interacting with a large, brown, spiky object resembling a cactus or similar plant. The creature is shown in various positions, including standing on top of the object, running towards it, and appearing startled or surprised by it. The background is a simple, dark blue wall, providing a contrasting setting. The lighting remains consistent, with the character and object being the main sources of illumination. The camera perspective is static, allowing for a clear view of the interaction between the creature and the spiky object. The sequence suggests a playful or humorous interaction between the character and the object.

Caption2: two bananas sitting on top of a cactus

**Instructions** | **Shortcuts** | Which caption describes the video better?

**Instructions** X

Play the video and watch it carefully from start to finish.

Read both captions provided above the video player. Your task is to select the better caption or indicate if the two captions have similar quality. Consider the accuracy, relevance, and quality of each caption in relation to the video content.

**Select an option**

- Caption1 is better. 1
- Caption2 is better. 2
- The 2 captions have similar quality. 3

(1.b) Caption preference UI

**Instructions** | **Shortcuts** | How dynamic the video is?

**Instructions** X

You are required to watch the provided video and assess its level of dynamism. Dynamism refers to the degree of movement, energy, and activity portrayed in the video.

Please rate the dynamism of the video based on the following scale:

- 1: Not Dynamic - The video lacks movement, energy, or activity.
- 2: Moderately Dynamic - The video contains some movement and energy but could be more engaging.
- 3: Very Dynamic - The video is highly energetic, active, and engaging.

**Select an option**

- 1: not dynamic. 1
- 2: moderately dynamic. 2
- 3: very dynamic. 3

(1.c) Dynamic degree evaluation UI

Caption: Video, a girl smiling and her head tilted to right side.

**Instructions** | **Shortcuts** | Which video is more dynamic and natural?

**Instructions** X

Play the video and watch it carefully from start to finish.

Read the caption provided above the video player. Your task is to select the better video or indicate if the two videos have similar quality. Consider the dynamic degree of the video content.

**Select an option**

- Upper Video is more dynamic and natural. 1
- Bottom Video is more dynamic and natural. 2
- The 2 videos have similar quality. 3

(1.d) Dynamic degree evaluation for generated video UI

Caption: Video, a girl smiling and her head tilted to right side.

**Instructions** | **Shortcuts** | Which video is more relevant to the caption?

**Instructions** X

Play the video and watch it carefully from start to finish.

Read the caption provided above the video player. Your task is to select the better video or indicate if the two videos have similar quality. Consider how relevant the video is to the caption.

**Select an option**

- Upper Video is more relevant to the caption. 1
- Bottom Video is more relevant to the caption. 2
- The 2 videos have similar quality. 3

(1.e) Video text matching evaluation for generated videos UI

**Instructions** | **Shortcuts** | How would you rate the aesthetic quality of the video?

**Instructions** X

You are required to watch the provided video and assess its aesthetic quality. Aesthetic quality refers to the visual appeal, creativity, and overall artistic value of the video.

Please rate the aesthetic quality of the video based on the following scale:

- 1: Poor - The video lacks visual appeal, creativity, or artistic value.
- 2: Fair - The video has some visual appeal and creativity, but could be improved.
- 3: Good - The video is visually appealing, creative, and has high artistic value.

**Select an option**

- 1: poor. 1
- 2: fair. 2
- 3: good. 3
