1 A Note Regarding Dataset Hosting

2 For the actual appendices, please see the main paper submission. Here, we would like to make a few
3 notes regarding the dataset hosting.

4 **Self-Hosting Platform** Our dataset is self-hosted on the 4TU.ResearchData platform, a trusted
5 institutional repository based in the Netherlands, which guarantees long-term preservation of research
6 data for a minimum of 15 years.¹

7 **Data Access Note** We provide a public access link (also attached in the main submission).²

8 **Machine Access via Croissant Metadata** For machine access, Croissant metadata file can be
9 found in our GitHub repository.³
