

Dataset Availability — Supplement (During Review)

Temporary review link (read-only):

<https://drive.google.com/drive/folders/1Ry-pTgbOfpOEN8ZCbqnAKW5SP5kcOjji>

Purpose: enable anonymous, reproducible evaluation during peer review. Please do not redistribute.

Contents (Google Drive)

- **Train.tar** — 3.90 GB
- **Valid.tar** — 569.9 MB
- **Test_Images.tar** — 1.13 GB
- **checkpoints/** — model checkpoints (read-only)

All images are de-identified lateral thoracic radiographs suitable for VHS measurement; split manifests and preprocessing/evaluation scripts are included inside the archives.

Permanent repositories (currently private)

- **Hugging Face:** https://huggingface.co/datasets/gen-ai-researcher/vhs_dogheart_db
- **Zenodo record:** <https://zenodo.org/records/16608263>

These records remain **non-public during double-blind review**. Upon acceptance, we will make both public and retire the Drive link. The public release will include:

- Dataset card (intended use, limitations, citation)
- License and **CITATION.cff**
- Versioned checksums for all files

Reproducibility notes

- Splits are **patient-level (dog-level)**; all studies from a dog reside in a single partition.
- Evaluation scripts reproduce the metrics reported in the paper with fixed seeds.
- No PHI/PII is present; filenames and metadata are anonymized.

Contact (anonymous)

For questions during review, please use the OpenReview discussion thread for this submission. We will not share identifying contact details until the review period ends.
